NFR-1 TREE INFORMATION/June 2012

HEIGHT: 60 ft

SPREAD: 60 ft.

DBH: 4 ft. 7 in.

QUANTITY: 1

NATIVE TO: Eastern United States

LANDMARK DATE:

The Bur Oak, also known as the Mossycup Oak, is a deciduous tree native to eastern North America. It has flaky grayish-brown bark. Its glossy green leaves contain 5-7 rounded lobes and can grow 8-10 inches long.

The landmark Bur Oak is located in the Ardenwood Historical Farm. It has a short leader with two very prominent primary branches. It is located where the Patterson House once existed. At the time of landmark in June 2012, it is located near an abadoned house on stilts.
