Photo Taken: June 2012

CRL-12 TREE INFORMATION/June 2012

HEIGHT: 15 ft.

SPREAD: 15 ft.

DBH: 2 ft. 7 in.

QUANTITY: 1

NATIVE TO: Europe, North Africa, western Asia

LANDMARK DATE: June 19, 2012

This landmark English Yew is located at Shinn Historical Park and Arboretum. A notable characteristic that sets the English Yew apart from other yews is that its canopy tends to spread at the top. All parts of the tree except for the flesh are extremely poisonous and immediate help must be sought after ingestion of any part of the tree.
